

## A month-offset table hidden in a string

```
class MonthOffsets {  
    static int offset(int month) {  
        int value = "-ilkDwlu2thk5".charAt(month);  
        return value % 7;  
    }  
}
```

### Triggered source regions

#### Assignment-value surprisal

```
"-ilkDwlu2thk5".charAt(month)
```

#### Literal-tail surprisal

```
"-ilkDwlu2thk5"
```

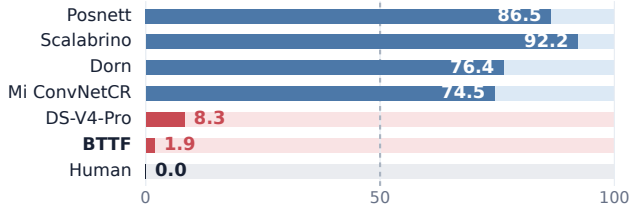

#### Declaration-surprisal variation

```
int value = ...
```

#### Identifier-onset surprisal

```
value
```
